

CLAIMS AMENDMENTS

Claims

~~what is claimed is I claim:~~

1. (currently amended) A ~~luek~~ lock clamp apparatus comprising:
a clamp seat having a space between a first clip and a second clip, and the
one side of the first and second clips ~~connecting to~~ connected to each
other; and
a stander pivoting at a point in a cavity of the second clip and ~~placing at a~~
dropping into an opening of the space between the first and second clips,
and having a holder generating ~~a effect of~~ pressure ~~to~~ against the first clip
when the stander is ~~spin~~ spun down by a weight.
- 2 . (currently amended) The ~~luek~~ lock clamp apparatus as in claim 1,
wherein the stander further comprises a connecting apparatus in the cavity
of the second clip to be moved up and down by an object ~~holded~~ being held.
- 3 . (currently amended) The ~~luek~~ lock clamp apparatus as in claim 1,
wherein the stander further has a plane that is opposite to the holder for
sticking with the cavity of the second clip.
- 4 . (currently amended) The ~~luek~~ lock clamp apparatus as in claim 3,
wherein the holder of the stander and the opposite of the plane form an
inclined plane of a leading plane.
- 5 . (currently amended) The ~~luek~~ lock clamp apparatus as in claim 1,
wherein the holding plane of the first clip and the holder have flat planes.
- 6 . (cancelled)
